PUBLIC NOTICE

EFFICIENT WATER USE DURING THE DRY SEASON

The Management of WASAC Group Ltd informs its valued customers that, due to the reduced availability of water during this dry season, a water rationing plan has been introduced.

Customers are encouraged to use water responsibly and, where possible, store water for use during periods when supply is interrupted in their respective areas.

The rationing plan will apply in areas affected by the current water shortages in the districts of Kicukiro, Gasabo, Nyarugenge, Bugesera, Kamonyi, and Rwamagana, and will take effect from Wednesday, 1 July 2026.

WASAC Group reminds all public tap operators that a 20-litre jerrican of water must continue to be sold at Frw 20. No one is permitted to increase the price because of the dry season.

Anyone who has a concern, needs clarification, or wishes to provide information is encouraged to visit the nearest WASAC branch or call the toll-free number 3535 for assistance.

We thank you for your cooperation in using the available water responsibly.

End.
