

Kigali, on..... 09 NOV 2021

N°11.07.053/3146/20-21/PROC-DSS-CEO/GU/sn

Addendum No. 1

Tender title: Supply and installation of the power factor correction equipment in different water pumping stations

Tender reference No. 11.07.053/3019/21-22/G/NCB/PROC-DSS-DUWSS-CEO/GU/sn

Subject: Extension of bids submission deadline

Reference is made to the issued bidding document No. 11.07.053/3019/21-22/G/NCB/PROC-DSS-DUWSS-CEO/GU/sn related to the WASAC tender for supply and installation of the power factor correction equipment in different water pumping stations where the indicated deadline for bids submission was scheduled on 12th November 2021 at 10:00 am;

Reference is also made to the letter from one of the potential bidders which requested WASAC the extension of 10 days to the bids submission deadline and to double the Q for PF correction without changing the total KVAR requested in the bidding document;

It is in line with the above that WASAC would like to inform all potential bidders that the bids submission deadline initially scheduled on 12th November 2021 at 10:00 am (local time) is extended to Tuesday 23rd November 2021 at 10:00 am (local time) in order to allow the potential bidder to carefully make calculation of power factor collection equipment.

WASAC also validates the issue of doubling the Q for PF correction without changing the total KVAR in the tender document due to the fact that if one equipment is used, and then fails, the whole system may be off while if they are two, you may have one equipment in failure and then have a remaining one in service.

The rest of the bidding document terms and conditions remain unchanged.

Sincerely,

Gisele UMUHUMUZA
Acting Chief Executive Officer
