After analyzing the requests, WASAC would like to inform all prospective bidders the following:

- Concerning the issue raised on items from 48 to 56 called HDPE stub end flanges and backing ring, all prospective bidders are informed that if it is not possible to manufacture the 40 cm of neck length as requested in the bidding document, you can use welding to add additional length so as to complete 40 cm set in the bidding document;
- The deadline for submission of bids initially scheduled on 07/01/2022 at 10:00 am (local time) is extended to Thursday 20th January 2022 at 10:00 am (local time).

Note that other bidding document terms and conditions remain unchanged.

Sincerely,
